SUMMARY

Full-Stack Developer with hands-on experience building MERN stack applications and backend APIs using Node.js, Express.js, MongoDB, and MySQL. Experienced in developing authentication systems, payment integrations, tenant management platforms, and educational web applications. Strong foundation in database design, RESTful APIs, and modern JavaScript development with a passion for building scalable and user-focused solutions.

WORK EXPERIENCE

- Lunar I.T. Solution (Backend Developer Intern)** Nov, 2025 - Feb, 2026
Developed and maintained RESTful APIs using Node.js, Express.js, and MongoDB, implementing authentication, authorization, and database operations. Collaborated with frontend developers for API integration, optimized backend performance, and used Git/GitHub for version control and team collaboration.

EDUCATION

- B.Sc. in Computer Science and Information Technology (CSIT)** Apr, 2022 - Mar, 2026
Godawari College, Tribhuvan University
- +2 (Computer Science)** Aug, 2019 - Dec, 2021
Sushma Secondary School
GPA: 3.12

PROJECTS

- MERN Authentication System**
Personal Project | React.js, Node.js, Express.js, MongoDB
<https://github.com/aakashstha1/MERN-Authentication>
Developed a full-stack authentication system implementing JWT-based authentication, user registration, login, and protected routes.
- EduPal - FYP**
Team Project | React.js, Node.js, Express.js, MongoDB
https://github.com/aakashstha1/EduPal_FYP
Collaborated with a teammate to build an online learning platform with course management, student enrollment, authentication, and interactive learning features. Contributed to both frontend and backend development.

Home Service Management System

Internship Project | React.js, Node.js, Express.js, MySQL

<https://github.com/aakashstha1/Home-Service-Management>

Contributed primarily to backend development for a service booking platform, implementing APIs, database operations, and service management functionalities.

EduPal - FYP

Personal Project | React.js, Node.js, Express.js, MongoDB

<https://github.com/aakashstha1/Bill-Management>

Developed a full-stack tenant management system for rent and utility bill tracking, featuring authentication, CRUD operations, dashboards, and data visualization.

ShortNpay

Collaborative Project | React.js, Node.js, Express.js, MongoDB

<https://github.com/aakashstha1/shortNpay>

Collaborated through GitHub on a URL shortening platform with eSewa payment integration. Contributed to frontend development and team-based version control workflows using Git and GitHub.

SKILLS

Languages : JavaScript, Python

Web & Frameworks : HTML, CSS, React, Node.js, NestJS

Databases : Mongo DB, MySQL

Tools : Git, GitHub, Postman, Docker
