SUMMARY

I'm a passionate web developer eager to start my career in full-stack development. I enjoy building projects, solving challenges, and learning new technologies along the way. I'm positive, responsible, and motivated to contribute effectively to any team while improving my skills.

WORK EXPERIENCE

- Lunar I.T. Solution (Backend Developer Intern)** Nov, 2025 - Feb, 2026
Built and maintained backend APIs while managing databases, ensuring efficient and reliable server-side operations. Debugged and optimized functionalities to improve performance and collaborated closely with the team for seamless frontend integration.

EDUCATION

- B.Sc. in Computer Science and Information Technology (CSIT)** Apr, 2022 - Mar, 2026
Godawari College, Tribhuvan University
- +2 (Computer Science)** Aug, 2019 - Dec, 2021
Sushma Secondary School
GPA: 3.12

PROJECTS

- MERN Authentication System**
https://github.com/aakashstha1/MERN_Authentication
Full-stack authentication system using MongoDB, Express, React, Node.js. Implemented JWT-based login, user registration.
- EduPal - FYP**
https://github.com/aakashstha1/EduPal_FYP
Online learning platform with course management, student enrollment, and interactive learning features. Built using React.js, Node.js, MongoDB.
- Home Service Management System**
<https://github.com/aakashstha1/Home-Service-Management>
Web-based system for booking and managing home services. Developed features for service requests, order tracking, and provider management using React, Node.js, MySQL.

SKILLS

Languages : JavaScript, Python
